

Camera Ballistics

Camera Ballistics is a unique product that uses advanced algorithms and cutting-edge technology to determine if a photo was truly taken by a suspected camera or not. By creating a camera sensor fingerprint, Camera Ballistics will compare the photos under investigation to the sensor fingerprint to determine if there is a match. The new Camera Ballistics 2 comes with a new generation of algorithms. It is more accurate, much faster, resize independent, 64-bits, brings concurrent processing and much more. Also works with UFED and other tools.

Connection Kit

This is a special collection of custom-made USB cables that covers the vast majority of phones ever manufactured and possibly available among users today. Save valuable time that you would have spent searching for older cables because this collection also includes discontinued and even ancient models. Everything is designed to allow for convenient and trouble-free work. The cables are short and well-labeled. The briefcase is lightweight with build quality ready to handle the most rugged everyday usage.

Smartwatch Kit

With the rise of popularity of smart devices, smart watch forensics starts to play an important role in the discipline of digital forensics. MOBILedit Forensic is able to read data directly from Apple Watch, Garmin, Samsung, Alcatel, TCL and others smart watches! This kit contains special readers, cables and accessories that are now available to buy as a bundle in the new Smartwatch Kit. With the combination of special connectors and MOBILedit Forensic you will be able to extract valuable information from the most popular smart watches.

MOBILedit Forensic

All-in-one forensic tool for physical and logical analysis

MOBILedit Forensic is an all-in-one solution for data extraction from phones, smartwatches and clouds. It utilizes both physical and logical data acquisition, has excellent application analysis, deleted data recovery, a wide range of supported devices, fine-tuned reports, concurrent processing, and easy-to-use interface. With a brand new approach, MOBILedit Forensic is much stronger in security bypassing than ever before.

MOBILedit Forensic offers maximum functionality at a fraction of the price of other tools. It can be used as the only tool in a lab or as an enhancement to other tools with its data compatibility. When integrated with Camera Ballistics it scientifically analyzes camera photo origins.

STANDARD Edition	PRO Edition
Standard edition is packed with the essentials – ideal for users who need a complete forensic tool, but might not need advanced functionality.	Pro edition is designed for users seeking advanced functionality – perfect for all law enforcement, industry experts and forensic professionals.
Unlimited phones	Security bypassing
One-time license fee	Photo object recognition
12 months of updates	Face matcher
1 computer	Malware detection
Deleted data	UFED support
App analysis	Access Data integration
App downgrade	Cloud Forensic compatible
Physical analysis	Camera Ballistics compatible
Unlimited imports	3rd-party Plugins

License comes with 12 months of all updates and upgrades, including the Live Updates service. Updates cost 50 % of a license price. License is perpetual. Number of phones you can connect isn't limited and there is no per-phone fee. Activation is online, with an activation key you receive by email after the purchase. Dongle activation for network isolated computers is also supported.

MOBILedit Forensic PRO with Dongle

Includes the same functionality as MOBILedit Forensic PRO with the difference of the license being attached to a transferable USB dongle. Supports off-line activation.

Update Pack for MOBILedit Forensic PRO

Also applies for MOBILedit Forensic PRO with Dongle

12 months of software updates for MOBILedit Forensic PRO and MOBILedit Forensic PRO with Dongle. Includes Live Updates.

Update Pack for MOBILedit Forensic Standard

12 months of software updates for MOBILedit Forensic Standard. Includes Live Updates.

Online Training with Certification

For those interested in official certification, we make it available to you in a time-efficient and cost-effective way. You can learn online, discuss key questions with our lecturer during the consultation session and finish the certification process by taking and passing the exam.
